 - Experience with jQuery JavaScript library

PROFESSIONAL EXPERIENCE:

8/2007 – 04/2009

Front End Designer/Developer - Consultant
Toshiba America Information Systems, Irvine, Ca

I was brought in as a consultant to redesign www.support.toshiba.com while making the information more user friendly. I then moved into the B2C team where I helped in creating <http://explore.toshiba.com> and www.ToshibaDirect.com. My role was to create Photoshop layouts and graphics converting them to XHTML/CSS while following existing style guides and update CMS and database content. After that I started on the redesign of www.sell.toshiba.com. This site is Toshiba's B2B channel reseller site. I created Photoshop layouts for most all the pages on this site while adhering to existing style guides. Converted the Photoshop layouts to XHTML/CSS/jquery and handed off to developers to add logic for dynamic content.

7/2007 – 8/2007

Web Designer - Consultant
Garden of E, Irvine, Ca

Create graphics in Photoshop/Illustrator and hand code compliant XHTML/CSS updates to existing client websites. Troubleshoot browser issues for all supported browsers. Copy XHTML/CSS into email marketing database interest lists and perform test/live email blasts.

2/2001 – 6/2007

Sr. Web Designer
Advanced Access, Anaheim, CA

Create website template mock-up designs in Photoshop and Illustrator. Translate Photoshop/Illustrator designs to working search engine friendly compliant XHTML, CSS and JavaScript static web pages while troubleshooting page to

work with all supported browsers. Make graphic and code updates to client websites on a daily basis. Design and create real estate WordPress themes while troubleshooting issues. Maintain corporate branding, graphics standards and guidelines. Design web email templates for sending clients. Work with Marketing/Sales Department to produce trade show flyers, banners and displays.
